

Proof-of-Nads (P♥ N)

Bring your Discord and Twitter connections into IRL

PROBLEMS

Face-to-Face meetings are frequent within Monad

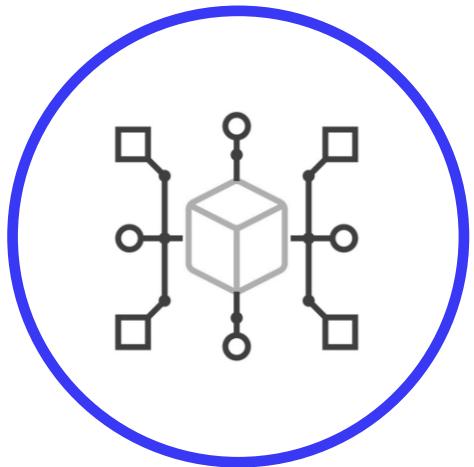

No Way to prove these real-world connections

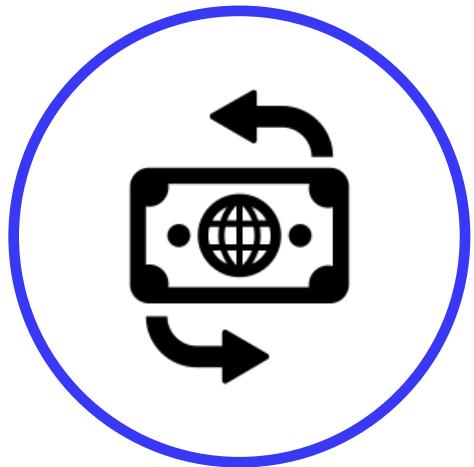

OUR SOLUTION

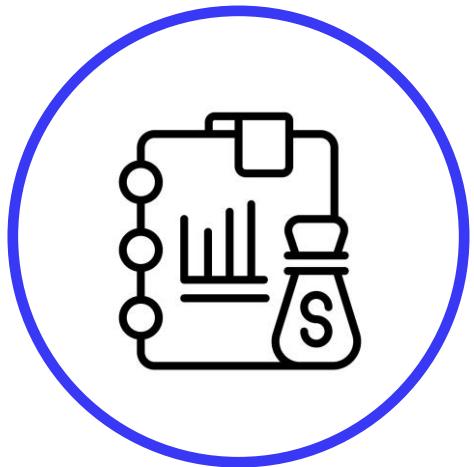

Proof-of-Nads – A social protocol designed to record and authenticate in-person meetings on the blockchain.

Create Web3 Social Profiles

Emotional and Economic Incentives

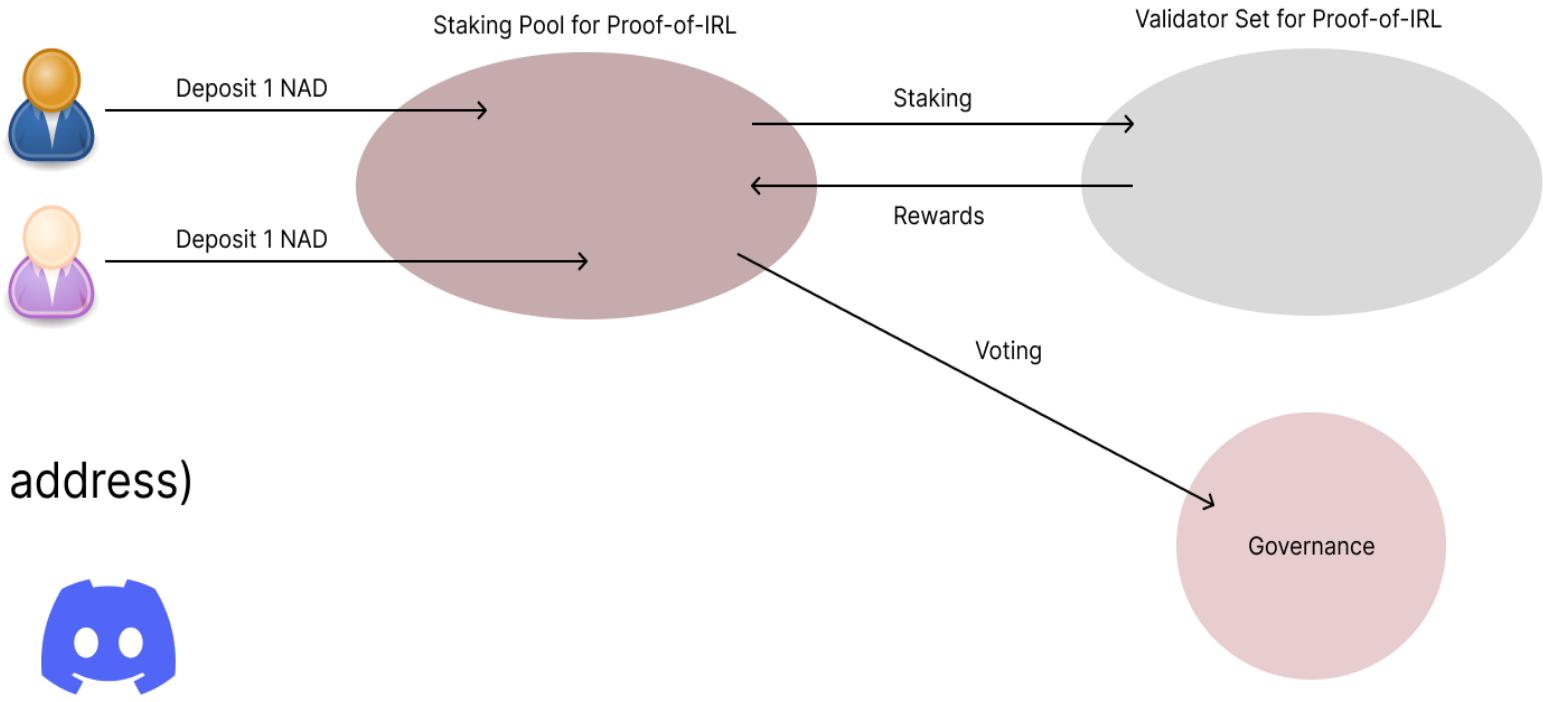

Boosting Community Meetups

FLows

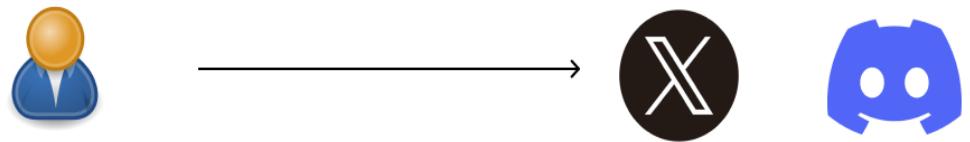

0. Staking as Pre-requisite

Deposit to Staking Pool

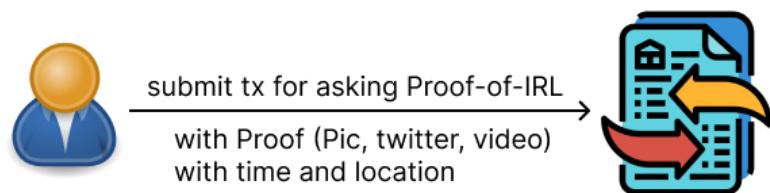

Setup Profile (Connect SNS to wallet address)

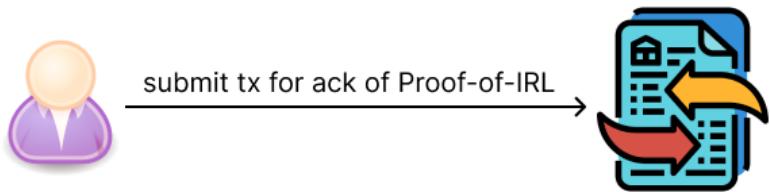

1. Optimistic Connection Procedure

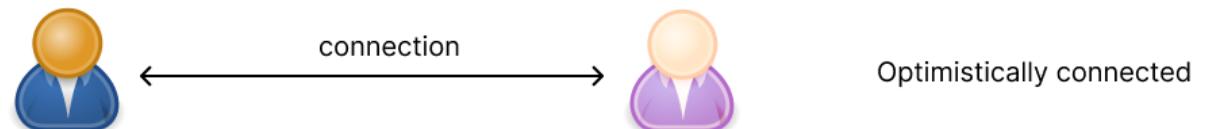

Connection Request Submission

Connection Acceptance

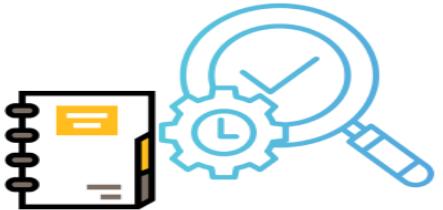

Connection Confirmed

2. Post-Connection Validation

Third-Party Validation Request

Evidence Review

Dispute Initiation

DIFFERENTIATION

Proof-Of-Nads will be a starting point, or gateway for Monad Ecosystem

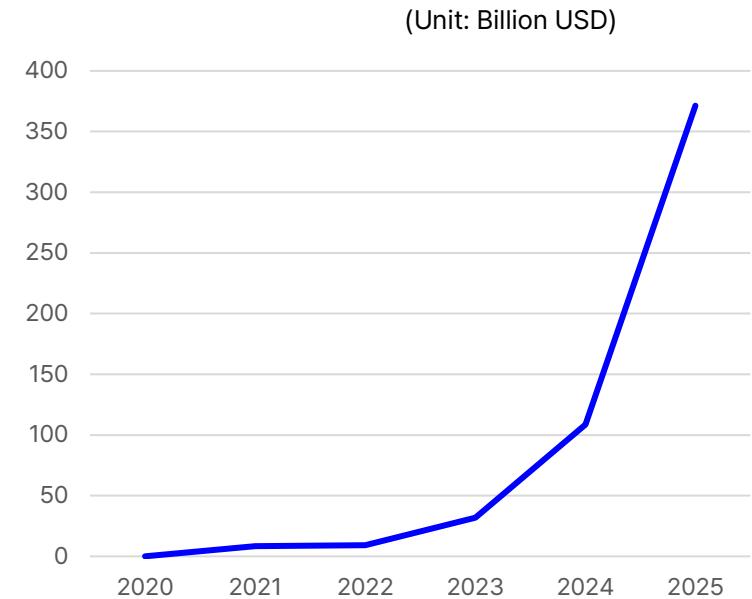

building trust based on real-life

Optimistic proof mechanisms

Economical Incentive

INCENTIVE STRUCTURE

POSITIVE FLYWHEEL BY INCENTIVE ARCHITECTURE

WHO-DO-YOU-MEET? BADGE

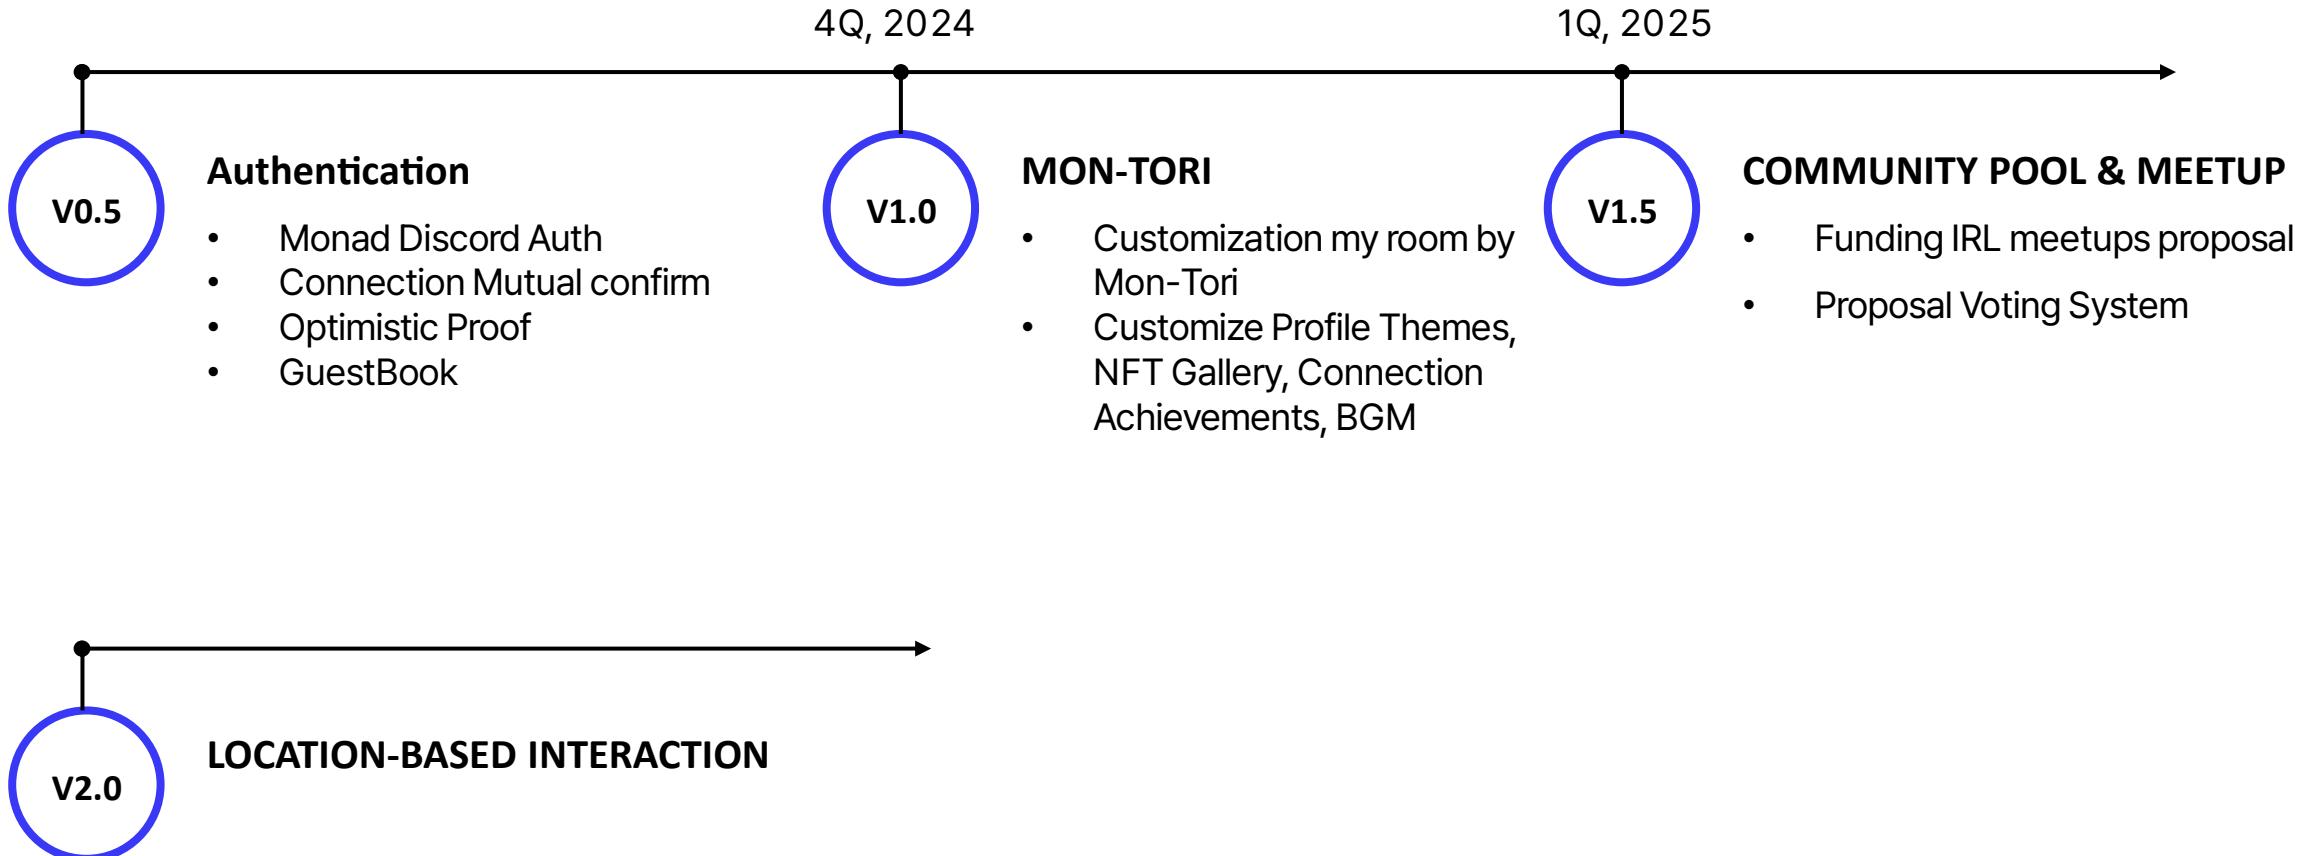

MON-TORI SYSTEM

MONAD USECASE FOR STAKING

ROADMAP

SUMMARY

Proof-Of-Nads: The next trust layer for Web3 communities.

Together, we are shaping a network built on trust and genuine connections."
